Fine living in the heart of Brunswick East.

## The Outside Architecture

The building design comprises a series of compositional parts reinforcing the fine grained character of the area.

The bold building form of concrete, steel and glass is juxtaposed against the elegance of the embossed brass entry way and tactility of the perforated screens. Cascading and climbing vegetation adds another layer of detail, softening the bold hard form.

This 'FINERY' detail makes an aesthetic connection to the historical roots of the area as an industrial fashion hub while also defining the site as a landmark within its context.

## Designed for living Interior Design

The interior spaces are designed with lifestyle in mind.

The layouts of each apartment are meticulously composed to encourage balance between work, socialising and relaxation.

Open plans and functional amenity, combined with highly detailed lux finishes present a stylish and sophisticated space to call home.

A pallet of concrete, timber, stone and glass form a rich tapestry of surfaces that evoke a sense of glamour and luxury. Large communal rooftop social areas and a hotel style lobby encourage community for residence of FINERY.

Framed views of the city skyline, the ranges and direct northern sunlight are defining features of this unique 'Island' site.
